

## Vision of the Department

To emerge as an excellent department to impart quality education and research in undergraduate programme through effective teaching learning process and good infrastructure to produce competent Civil Engineers.

## Mission of the Department

M1

- Establishing State of art facilities to meet the needs of academics and research.

M2

- Engaging the qualified and experienced faculty to disseminate the knowledge through effective teaching learning process.

M3

- Provide rigorous hands-on training on Civil Engineering software tools to build the competencies and skills among students and faculty.

M4

- Prepare students as competitive Civil Engineers through lifelong learning and professional practice with holistic concern for Environment and Society.

M5

- Establish center of excellence in specialized areas and topics of Civil Engineering.
